

WILLIMANTIC

Norwich Bulletin, Willimantic Office,
13 Church street, Telephone 183.

What is Going On Tonight.
Observance of the 16th I. O. O. F. meets at 807 Main street.
The meeting of Willimantic Rotary club was held Thursday at 1 o'clock with an attendance of 100 per cent. Reports of previous meetings were made by Secretary Charles W. Hill. It was stated that 90 per cent of the club members would attend the convention at Boston on the 20th and 21st of this month. Cards were distributed to be signed by members planning to attend the convention. President Frank H. Pons appointed Jay M. Shepard, George W. Hickey and Alvin J. Marquette an entertainment committee. A letter has been sent to the International Rotary headquarters explaining the territory included in the Willimantic district, and the charter will arrive upon the acceptance of the plan by the international office.
The meeting was then turned over to

Charles W. Hill who introduced George Vannias, secretary of the Hartford Rotary club as the speaker for the day. Mr. Vannias stated that frequently the best dinner talks were made by members of the organization. Rotary, he said, does not ask for perfection but does demand inspiration, and gives the individual a chance to grow.
He then told of the work done by the Hartford Rotary club to draw attention to the needs of the Newton Home for Children. The 112 children at the home, many of them crippled are being helped back to health, that they may be able to go out into the world. At present the buildings are worse than any home where children should be kept and Rotarians are interested in seeing that a new home is built, one of fire proof construction. In the building now used, a wooden one, the danger of loss of life if a fire breaks out is great.
One of the greatest things about the home is the fine care the children get. Children at the home are happy and healthy and are the best of all in spite of handicaps the place shines with cleanliness. Advance has been made during the past twenty years in many lines, but the greatest advance civilization can achieve is to make life happier for those unfortunate denied the happiness of children who have parents and have good health. The slogan of the late President Theodore Roosevelt, "A Square Deal," should be used today. Rotarians in the state are willing to do their share, but the state should first aid in making conditions better.
When the bill for better conditions at the Newton Home comes up before the state legislature, Rotarians should be out in force and demand justice for those poor kiddies, who, although facing the worst of conditions, face it with a smile.
During the past years organizations have sprung up to make meetings of men of various businesses possible. The one that does not meet often enough, Rotary with its weekly meetings, makes it impossible for trade or business men to creep out. Since time immemorial the breaking of bread has tended to disperse distrust and instead, makes friends. The place where the body is nourished is the place where the soul can be nourished. Another great thing about Rotary is the working of that organization to better conditions in the home city.
Frederick Camp, superintendent of schools of Stamford, a member of the Kiwanis club of that city, spoke briefly, thanking the Rotarians for the privilege of attending their meeting. He extended the club members an invitation to attend a Kiwanis meeting at Stamford any Monday noon they might be in that city.
The Church-Reed Company, clothing and shoe dealers, held the formal opening of their new store Thursday. In November of last year women began cutting through the partition at the left of the old store, into the store adjoining, increasing the floor space to double that of the old store. The front of the store is given over to displays of clothing, the shoe business being in the rear of the addition. The window display room has also been more than doubled. During the opening day the many visitors at the store were presented carnations as favors. The personnel of the local store force includes T. Frank Cunningham, manager, J. Edmund Hurley and Albert Piche. Officers of the firm are H. E. Church of Danvers, treasurer; T. Frank Cunningham, secretary and assistant treasurer.

You get all the cream with a De Laval

GETTING all the cream means getting all the profit. It means that more money can be saved, or that more is available for use in building up the farm or for paying expenses.

Not every separator is designed so that it will get all the cream; some may do so for a short time. But there is one machine that can always be depended upon to skim clean—the De Laval. You don't have to take our word for it; ask any De Laval user.

A De Laval user gets more cream from the milk of each cow, gets longer service from his machine, and spends less time turning and washing it. Even if you have only one good cow it will pay you to own a De Laval.

Wouldn't you like to know more about the De Laval? Show the best time you are in town.

Sooner or later you will buy a De Laval
